

Cedrick Monesit

IT Specialist and Web Developer

Phone: (508)-494-4306 | Email: cedrickmonesit@gmail.com | [LinkedIn](#) | [Github](#)

Portfolio: <https://cedrickmonesit.github.io/Portfolio.github.io/>

Skills

Certifications: CompTIA A+, Network+, Security+, ITF+, CIOS, CSIS, ITIL 4 Foundation

Systems: Windows, Linux, macOS, Hyper-V (VM deployment, configuration, resource allocation)

Troubleshooting: TCP/UDP, DNS, DHCP, OS imaging, Event Viewer, BIOS/UEFI

Networking: IP addressing, subnetting, VLANs, DHCP/static IP configuration, routing and switching

Tools: PowerShell, Linux CLI (Zsh), Git, GitHub

Web Development: JavaScript, HTML, CSS, React, Redux, SASS, jQuery, Node.js, Express.js, UI/UX, wireframing

Summary

IT professional and web developer pursuing a B.S. in Cybersecurity and Information Assurance at Western Governors University. Experience with web development (HTML, CSS, JavaScript) and hands-on IT skills including system configuration, networking, and troubleshooting. Passionate about building scalable web applications and maintaining secure, efficient IT environments. Continuously expanding knowledge in cybersecurity, infrastructure, and modern development practices.

Experience

- **IT Specialist** *Homelab Environment*
 - Provided support via simulated ticketing workflows and documented incidents and solutions
 - Deployed and configured endpoints performing OS imaging and system provisioning
 - Configured host networking settings (DHCP/static IP, subnet mask, DNS, default gateway)
 - Configured routers and switches troubleshooting routing tables, ARP, VLAN, and MAC tables
 - Maintained network printers troubleshooting connectivity and printing issues
 - Administered user accounts and file permissions for mapped network drives
 - Deployed and configured workstations, peripherals, drivers, and updated Windows system OS
 - Performed hardware and software installations, upgrades, and troubleshooting
 - Supported simulated remote users, troubleshooting VPN, network, and authentication issues
 - Maintained physical and logical asset inventory of hardware and virtual machines
 - Created procedural documentation and knowledge base articles
- **Web Developer** *TextConnects* *Danielson, CT*
November 2020 – March 2022
 - Developed order fulfillment system (Javascript, Node, Express, HTML, CSS, Firestore)
 - Implemented package tracking using UPS Quantum View API (Javascript, Node, Express)
 - Built CMS for content management (React, SCSS/SASS, JSON, Liquid, Shopify)
 - Improved web performance (Lighthouse, image optimization, compression, JS deferment)
 - Enhanced accessibility to meet ADA compliance (HTML, Javascript)

Personal Projects

- **FilmFlix** cedrickmonesit.github.io/film-flix/
 - Browse, bookmark your favorite movies, tv shows, and actors. A single page movie site with user account login, favorites list, and leveraging responsive design for mobile devices. Utilizing Javascript, React, Redux, Router, SASS, and TMDB API

Education

- | | Graduation |
|--|-------------|
| ● Keefe Technical High School - Programming and Web Development | 2016 - 2018 |
| ● Waltham Senior High School - High School Diploma | 2018 - 2020 |
| ● Western Governors University - Bachelor of Science in Cybersecurity | 2024 - 2027 |
